Sabbath School Lesson No. 8 for August 22, 1970
Subject: Christ: Servant of Man's Necessity.

Key Text: I am the living Bread which came down from heaven: if any man eat of this bread, he shall live forever, and the bread that I will give is My flesh, which I will give for the life of the world. John 6:51

Though He was Lord of all, Jesus presented Himself to the people of His day as God's Servant sent to Minister to man's many needs. He that is greatest among you shall be your servant. Jesus told the Pharisees. Matt. 23:11. Whosoever will be chief among you, let him be your servant, He counseled His disciples, Matt. 20:27. This lesson highlights some of the ways in which the Saviour gave Himself to meet man's need. The ultimate test of Christ's mission to earth is the degree to which we serve our fellowmen.

Lesson Outline–1. The Bread of Life, John 6:48-51. 2. Sins Forgiven Mark 2:5-11. 3. Miracles attest Jesus Messiahship John 20:30-31. 4. The Living Christ. John 10:17-18. 5. Many Reject Jesus John 6:51-66. 6. There is no alternative, John 6:67-69.

Like the twelve disciples we shall do well to face up to this question. To whom shall we go today? Is there anything else worth living for? As I see it in this lesson Jesus is our Saviour – No one can take His place.

Sabbath School – 9:45 a.m.
Worship Service – 11 a.m.

Joseph Lewis Suggests School-Open Time Unlimited

By Joseph Lewis

As State Youth Coordinator of opportunities for the disadvantaged, I feel that trends in a number of areas must be changed, and changed drastically if the disadvantaged are to realize their potential and become an active part of this great Commonwealth.

Public school facilities, out of necessity, should be open evenings and nights around-the-year for citizens that are in need of additional training to enter the job market. Closing educational facilities at 3 p.m. is a waste of the tax payers money and limits the opportunities for needy persons to gain training that is so desperately lacking in many segments of the state.

In an effort to provide cultural, educational, recreational, and job opportunity for the disadvantaged, and in conjunction with the S-mate Joint Resolution Number 28, (The State Department of Education is directed to review ways of making more complete use of school facilities for community functions and activities. Such review shall include how the use of buildings, athletic areas, and buses can benefit communities more for recreation, civic, and cultural uses,) this office has initiated a statewide campaign to promote the Flint, Michigan Community School concept.

The purpose of this concept is to mobolize the human and institutional resources of a community in such a way that; senseless and costly duplication is avoided; peoples of all classes and creeds are given the necessary encouragement and opportunity to help themselves to a better life; local institutions – schools, government, business– become genuinely responsive to human needs and wants.

With this method the role of the school is expanded from that of a formal learning center for young operating 6 hours a day, 5 days a week, 39 weeks a year to a total community Opportunity Center for young and old operating virtually around-the-clock, around - the - year. Schools make excellent community centers.

The traditional school, operating six hours a day, five days a week for 39 weeks each year is a luxury this era cannot afford. Too many Americans are functionally illiterate. Too many Americans are lost in a void of leisure time. Wasted talent and unfulfilled lives are a blight in this most vibrant and productive of all nations.
